

Imaging Services

Preserving the past to secure the future.

Iron Mountain Media & Archival Services is dedicated to delivering exceptional, high-resolution imaging services that expertly preserve and digitally reproduce your most treasured 2D assets. By employing our state-of-the-art Phase One Camera capture system, complete with an outstanding 150MP camera and the industry-leading Capture One software, we are able to produce exquisitely color-balanced images boasting an impressive diatomic range. Our sophisticated technology guarantees precise edge-to-edge captures, consistently exceeding the strictest FADGI 4-Star and Metamorfoze standards. This commitment to unparalleled quality ensures that your valuable collections are not only safeguarded for future generations but are also presented in the finest detail possible, truly honoring the essence of your cherished memories.

Why choose imaging services from Iron Mountain Media & Archival Services?

- 1. Expertise.** With decades of experience in media archiving, preservation, and digitization, our team has the knowledge and skills necessary to handle even the most complex projects.
- 2. Technology.** We utilize the latest imaging equipment and software to deliver high-quality, future-proof digital assets.
- 3. Customized solutions.** Our team works closely with you to develop a tailored imaging solution that meets your specific needs and budget.
- 4. Security.** We adhere to strict security protocols and industry standards, ensuring your valuable assets are protected throughout the digitization process.

Use Cases

High-resolution image capture not only serves as an essential instrument for the meticulous management of any collection but also presents an exhilarating prospect for cultural and historical organizations. This technology empowers institutions to do more than just safeguard their assets for future generations; it enables them to share these treasures with a worldwide audience online, connecting the present with the past and fostering a rich cultural exchange across the globe. Our use cases extend across:

- > Original album or movie poster artwork
- > Museums & art galleries
- > Universities & libraries
- > Corporate heritage archives
- > Multimedia companies
- > Photo Archives
- > Professional Photographers

May we introduce ourselves?

You've been tasked with the critical and complex role of both preserving irreplaceable assets, and identifying the evolving technology to keep this content accessible for the world's audiences.

Everyone at Iron Mountain Media & Archival Services cares about your archive as much as you do. We think and act as an extension of your own team to meet the current and future needs of your archive for both historical preservation and revenue generation. We'll always hold ourselves accountable to your standards.

- > **Passion and Expertise**
Experts, industry veterans, and specialists who truly love what they do; we work as an extension of your team, giving you confidence to solve any challenge that comes your way.
- > **One stop shop**
Our complete chain of custody and services can support the entire asset lifecycle. We'll make it easier to solve a diverse set of challenges by tailoring solutions to meet your exact needs and requirements.
- > **Industry-leading technology**
Our tools and technology enable us to provide world class security, remediation, and inventory management, so you can confidently access your most important assets — now and forever — wherever they are.

About Iron Mountain Media & Archival Services

Iron Mountain Media & Archival Services, founded in 1988 is the media and entertainment division of Iron Mountain Incorporated® and the go-to physical and digital media archiving service for the media and entertainment industries. They partner with clients ranging from the broadcast, film, music and sports sectors to brand archives and individual artists' collections and estates, to protect and activate media archives to preserve our collective cultural heritage. A global leader in media preservation, restoration and archive management, they offer industry-leading archive, storage, chain-of-custody processes and physical and digital content preservation solutions to ensure the complete protection of some of the world's most treasured and iconic assets.
